

Assignment 1

Identification of Writing Types from Real-World Texts

Purpose of the Assignment

This assignment will help you:

- Identify different types of writing in real-world contexts.
- Distinguish between **Critical, Academic, Technical, and Business Writing**.
- Analyze purpose, audience, tone, structure, and style.
- Apply theoretical knowledge to authentic materials.
- Develop analytical and evaluative skills.

Task Description

You are required to collect **four real-world written texts**, each representing one of the following writing types:

1. Critical Writing
2. Academic Writing
3. Technical Writing
4. Business Writing

You must then analyze and justify why each text belongs to its specific category.

Step 1: Text Collection

Find and attach (or screenshot) one example of each:

Critical Writing Example

Possible sources:

- Opinion/editorial article
- Analytical blog post
- Academic argumentative essay excerpt
- Review article (not summary — must include evaluation)

Academic Writing Example

Possible sources:

- Research article excerpt
- Journal paper
- Literature review section
- Academic essay sample

Technical Writing Example

Possible sources:

- User manual
- Product instructions
- Technical report excerpt
- Software documentation
- Workplace procedural document

Business Writing Example

Possible sources:

- Professional email
- Memo
- Business proposal excerpt
- Company report
- Workplace notice

Step 2: Comparative Reflection (500 Words)

Write a short reflective section answering:

1. What are the main differences between Academic and Technical writing?
2. Which writing type is most concise? Why?
3. Which writing type requires the most critical thinking?
4. Which type do you think is most difficult to produce? Why?

This section should show synthesis and comparison.

Formatting Requirements

- Word Count: 500 words total
- Font: Times New Roman
- Size: 12
- Line Spacing: 1.5
- Headings required
- Attach original texts as appendix

Important Notes

- Do NOT use AI-generated texts as your examples.
- Use authentic real-world materials.
- Plagiarism will result in zero marks.
- Your justification is more important than the example itself.
